Note

This is a book filled with pictures of all kinds of animals. The animals are given to you only partly drawn. It's up to you to fill in the rest of each animal by connecting the dots in each picture. To connect the dots, use a pen or pencil and draw a line from dot 1 to dot 2, from dot 2 to dot 3 and so on until all the dots are connected. You can try to guess what kind of animal is shown in the picture before you connect the dots. There are sayings under each one, including many with a hint to help you guess. Also, there's a list of animals at the back of the book so you can check your answers. When you are finished connecting the dots, you will then have 56 wonderful pictures ready for you to color in any way you want to. You will run into many delightful and some strange animals as you have fun following the dots in the pages of this book—so let's get started!
